Investment Objective, Policy and Restrictions

Investment Objective	<p>The objective of the Sub-Fund is to generate capital appreciation over a medium-term horizon with lower volatility relative to the broad equity markets.</p> <p>There is no guarantee that the investment objective of the Sub-Fund will be achieved and investment results may vary substantially over time.</p>
Investment Policy	<p>The Sub-Fund will achieve its investment objective by investing in multiple alternative strategies, including, but not limited to, some or all of the following strategies: Long Short Equity, Relative Value, Event Driven and Global Macro, each of which are described below:</p> <p>Long Short Equity Strategies generally seek to produce returns from investments in global equity markets by taking long and short positions in stocks and common stock indices. Long Short Equity Strategies can be differentiated in various ways and investment philosophies. Examples include market-neutral and long biased strategies.</p> <p>Relative Value Strategies contains a wide range of investment techniques that are intended to profit from price or rate inefficiencies. The strategies usually exploit the pricing discrepancies by taking a position in one financial instrument and simultaneously taking an offsetting position in a related instrument. Examples include volatility and credit arbitrage.</p> <p>Event Driven Strategies generally imply investment in securities of companies undergoing corporate events and take advantage of the temporary stock mispricing that can occur before or after the event. Examples include mergers, acquisitions, and reorganisations.</p> <p>Global Macro Strategies can take long and short positions in various asset classes and futures markets based on macro-economic opportunities. Global Macro Strategies are considered among the least-restricted strategies as they generally can place any type of trade using various instruments.</p> <p>The Sub-Fund intends to invest in a wide range of transferable securities, financial derivative instruments, and other eligible securities, including Collective Investment Schemes, bonds and equities.</p> <p>The Sub-Fund does not have geographical, market capitalization or rating bias for Eligible Securities, but can invest across all types of Eligible Securities within the above-mentioned strategies in order to fulfil its investment objectives.</p> <p>In seeking to achieve the Sub-Fund's investment objective, the Investment Committee and the Sub-Investment Manager will take into account the principle of risk spreading by means of the diversification of investments.</p> <p>The investments may occur directly in individual securities or indirectly through eligible collective investment schemes or ETFs (exchange traded funds).</p> <p>A proportion of the assets of the Sub-Fund will be invested in other UCITS Schemes and /or Other Collective Schemes that have an annual management fee which is lower than or equal to 1.25%.</p> <p>The Sub-Fund will not invest in UCITS Schemes and/or Other Collective Schemes managed by the same Investment Committee or Sub-Investment Manager.</p>
Use of Derivatives	<p>The Sub-Fund uses financial derivative instruments for hedging, efficient portfolio management and/or investment purposes. These financial derivative instruments shall only be dealt on a Regulated Markets and are limited to</p>

<p>Investment and Borrowing Restrictions</p>	<p>options and futures contracts on indices.</p> <p>Investments made by the Sub-Fund will be regularly monitored by the Investment Committee and the Sub-Investment Manager. Allocations of the Sub-Fund's assets may be adjusted to reflect the degree to which an investment meets the investment objectives and policy.</p> <p>In pursuing its Investment Objective and Investment Policy, the Sub-Fund will be subject to the Investment, Borrowing and Leverage Restrictions set out in the Section of the Prospectus entitled "Investment Objectives, Policies and Restrictions".</p>
<p>Global Exposure</p>	<p>The global exposure of the Sub-Fund arising out of its FDI positions will be measured on the basis of the Absolute VaR as set out in the MFSA Rules.</p> <p>The Value-at-Risk approach (absolute VAR) is used to calculate the Global Exposure of the Sub-Fund and will not exceed 20%. The Sub-Funds global exposure relating to derivative instruments will not exceed the total net value of the portfolio. FDIs will be used in pursuit of the investment objective and efficient portfolio management purposes.</p> <p>Leverage generated through the use of FDIs is limited to 100% of NAV of the Sub-Fund.</p> <p>The expected level of leverage of the Sub-Fund is 500%, calculated as the sum of notional value of derivatives used. The actual level of leverage of the Sub-Fund might change over time and might temporarily exceed or be inferior to the expected level of leverage of derivatives of the Sub-Fund. As derivatives are used for different purposes including hedging and/or investment purposes, the calculation of the expected level of leverage does not distinguish between the different purposes of a derivative. Therefore, this figure delivers no indication regarding the true riskiness of the Sub-Fund</p>
<p>Approved Regulated Markets</p>	<p>As per the Prospectus.</p>

Integration of Sustainability Risks

In light of the investment policies of the Sub-Fund, the Company generally considers the potential impact of ESG risks on the returns of the Sub-Fund to be low. However, no assurance can be given that ESG risks will be avoided or, in the event that they arise, effectively mitigated and losses may be incurred. In this regard, the Company does not deem sustainability risks to be relevant to the Sub-Fund, as the investment objective is that of investing into multiple alternative strategies, while a substantial proportion of the assets will be invested in other UCITS Schemes and/or Collective Investment Schemes. As the Sub-Investment Manager does not have a look-through on the underlying assets, while many of the alternative strategies use derivatives on broad indices that are not labeled as ESG indices, the Sub-Investment Manager is not in a position to monitor and measure adverse impacts of investment decisions on sustainability factors within the Sub-Fund.

Consequently, the Company does not make investments decisions in respect of the Sub-Fund based on Sustainability Risks and does not consider the adverse impacts of sustainability factors on the returns it offers to its Shareholders as this does not fit in with the current investment strategy of the Sub-Fund.

Please also refer to the sections of the Prospectus entitled 'Important Information' and 'Risk Factors' for further information in this regard.

The offering of the Investor Shares at the Initial Offering Price commenced at 10:00 CET on 15th March 2016 and closed at 15:00 CET on the Closing Date.

During the Offering Period which shall commence on the first Business Day after the Closing Date and remain open until such time as the Directors determine otherwise, the offer is for Investor Shares at the Subscription Price applicable on the relevant Subscription Day.

Purchase, Transfer and Exchange of Shares

Investor Shares can be purchased at the prevailing Subscription Price, by submission to the Company at the office of the Administrator of the relevant and properly completed Subscription Application prior to the Subscription Notice Deadline. Subscription requests received after the cut off time for receipt of subscriptions requests will be processed on the following Subscription Day.

If the Subscription Application is not received as required, then the Subscription Application may be rejected or held over until the next Subscription Day at the discretion of the Company. Payment should be effected as described in the Payment Forms which are available from the Administrator. At the Company's discretion, payments may be accepted other than in cash. - 1.15% per annum in respect of the Class A EUR Accumulation Shares; and
- 1.15% per annum in respect of the Class A EUR Distribution Shares.

The Sub-Investment Management Fee will accrue at every Valuation Day and shall be payable monthly in arrears.

The Sub-Investment Manager will be reimbursed for all properly incurred and approved out-of-pocket expenses.

Performance Fee

In respect of the Class A EUR Distribution Shares and Class A EUR on Shares.

The Sub-Investment Manager shall also receive from the Company in respect of the Sub-Fund a performance fee (the "Performance Fee") on the appreciation in the Net Asset Value of the Sub-Fund over the previous High Watermark ("HWM"), adjusted for any dividend distribution, and multiplied by the number of Investor Shares in issue in the related class of Investor Shares at the end of the related Calculation Period. Each "Calculation Period" shall commence on the Business Day immediately following the last Dealing Day of each quarter and end on the last Dealing Day of the respective quarter.

The Performance Fee in respect of each Calculation Period will be calculated by reference to the Net asset Value excluding any accrued Performance Fee (i.e. the "Gross Asset Value" or "GAV").

For each Calculation Period, a Performance Fee shall be payable in an amount of 15% of the performance between the current NAV and the highest NAV of the previous quarter-ends (HWM). The HWM is the higher of (a) the Initial Offering Price, and (b) the highest NAV per share on which a performance fee was paid, reduced by the amount of any dividend distributions to align with the NAV.

When a dividend is distributed, the HWM will be reduced by the dividend amount, ensuring that subsequent NAV growth from the adjusted level is recognized as new performance. This approach ensures fair treatment by recognizing distributed dividends as realized performance for the investor, while treating any subsequent NAV growth as new profit, thereby justifying the application of the performance fee to this fresh growth.

For example:

Distribution Fund:

- Initial NAV = €100. The NAV grows to €110, with performance fees applied to this increase.
- A €10 dividend is paid, reducing the NAV to €100 and lowering the HWM accordingly.
- Subsequent growth in the NAV from €100 to €110 represents new performance, justifying a new performance fee.

Accumulation Fund:

- Initial NAV = €100, growing to €110 with performance fees applied on this growth.
- No dividend is paid, so the NAV remains at €110.
- Any further NAV increase to €120 generates a new performance fee on the additional growth.

In both cases, the manager is compensated solely for generating new profits, ensuring parity between accumulation and distribution funds.

The daily NAV calculation with performance fees guarantees equitable treatment for all investors, regardless of their entry or exit timing. The NAV is adjusted daily to reflect performance fees based on actual fund performance, ensuring an accurate reflection of accrued performance fees at any transaction point.

The Performance Fee will be calculated and accrued on every Valuation Day and is payable quarterly in arrears normally within 14 calendar days of the end of each Calculation Period.

The Rights of Shareholders

The rights of Shareholders are stated in the Memorandum and Articles and in the Companies Act. They include (inter-alia) the right to receive notice of, and to attend and to vote at, meetings of the Company as summarised below.

The Investor Shares entitle Shareholders to participate in the movements, both positive and negative, in the value of the assets of the Sub-Fund as well as the receipt of dividends as set out hereunder.

The Founder Shares do not (for so long as there are any Investor Shares in the Company in issue) carry the right vote at general meetings of the Company, but they have (together with the Board) the exclusive right to nominate Directors as eligible for appointment by the Company in general meeting. The Founder Shares do not carry a right to participate in any dividends or other distributions of the Company or in the assets of the Company on a winding up (other than to the surplus, if any, that may remain after payment of all amounts due to creditors and holders of the Investor Shares).

Share Capital and Accounts

Fractional Shares will be issued up to four (4) decimal places.

Dividend Policy (Distribution Shares)

General

The Company will distribute an annual dividend in respect of the Distribution Shares in accordance with the Prospectus. It is envisaged, but no guarantee is given, that most or all of the net income of the Sub-Fund will be declared in the form of dividends.

Only those Shareholders listed on the Company's register of members at close of business on the last Business Day immediately preceding the relevant dividend cut-off date shall be entitled to receive the respective dividend payments for the relevant period. Payments shall be effected in the Base Currency.

Payment of a dividend will be made in the name of the Shareholder or, in the case of joint holders in the name of the first-named joint holder. Payment to the first-named joint holder shall be as effective a discharge to the Company and the Custodian as if such first-named joint holder had been a sole holder.

Payments of dividends will be made by crediting:

- i. Payments of dividends will be made by crediting of the Shareholder's bank account;
- ii. the re-investment in further Investor Shares.

Notwithstanding the foregoing, the Directors reserve the right to stipulate a threshold below which dividend payments will be automatically re-invested.

Where the Shareholder has opted for direct crediting of dividends and the relative direct credit is rejected for any reason outside the Company's control, the Company shall: (a) re-invest the proceeds of the direct credit, less any bank charges if applicable, in further Class A EUR Distribution Shares and in the name of the Shareholder(s) on the next Subscription Day following the date that notice of the rejection was received; (b) be deemed to have been given notice from the Shareholder that any future dividends will be automatically re-invested, and the resulting Class A EUR Distribution Shares added to the Shareholder's holding in accordance with the Prospectus; and (c) send a statement to the Shareholder reflecting the re-investment of the aforesaid dividend proceeds. Nonetheless the Shareholder may, at any time inform the Company of alternative arrangements for the direct crediting of subsequent dividends.

Shareholders may also elect to have their dividends (less any withholding tax deductible upon payment thereof) reinvested in further Class A EUR Distribution Shares in the Sub-Fund. Reinvestment of dividends shall be effected on the next Subscription Day following the day on which the relevant dividend will be payable to the Shareholder and shall be effected at the applicable Offering Price.

If a Shareholder wishes to alter his instructions regarding the payment or re-investment of dividends, he should provide the Company with written instructions at least seven (7) clear Business Days prior to the relevant dividend cut-off date. The Company and the Custodian shall not be responsible for any loss or delay in transmission and dividends or any amount payable to Shareholders shall not bear interest against the Company.

Any dividend payments which remain unclaimed after a period of twelve (12) years from the date of payment shall then be transferred to and become part of the Sub-Fund's assets and neither the payee, Shareholder nor their successor(s) in title shall have any right thereto other than as part of the NAV per Share.

Shareholders entitled to receive dividend payments will, on or after the payment date, be sent a Dividend Certificate which shall include details in respect of the income distributed including, if required by any applicable legislation, a statement of how much of the amount to which they are entitled represents any tax deducted in respect of that income.

All payments are subject to any pledge of Investor Shares duly constituted and notified to the Company as well as to any applicable fiscal laws and regulations — your attention is drawn to the section in the Prospectus entitled "**Taxation**" and to the part hereof entitled "**Taxation**" hereunder.

All dividend payments shall be effected in accordance with the Licence Conditions or any other applicable MFSA requirements.

Allocation of Income

Pursuant to the Company's Memorandum and Articles, the income available for allocation in respect of the Class A EUR Distribution Shares is calculated by deducting all payable charges, fees, taxes, and other expenses from all income while taking into account the corresponding income equalisation. The Sub-Fund shall distribute the realised capital gains and other income (accounting for income equalisation) and shall in case there is no realized capital gain and other income, to distribute the unrealised capital gains.

Income Allocation Dates

Any income which stands to be allocated to the income account in respect of an interim accounting period shall be so allocated by not later than two (2) months after the end of each interim accounting period as specified in this Prospectus for the purposes of dividend distributions, and in respect of the Accounting Period, the allocation shall be made by not later than two (2) months after the end of the Accounting period.

Equalisation Account

The Offering Price of any Class A EUR Distribution Shares generally contains an element representing the accrued income earned by those Class A EUR Distribution Shares since the start of the relevant interim period. This means that investors buying Class A EUR Distribution Shares buy a percentage of net income, and the corresponding portion of the Offering Price (the equalisation payment) will be notionally credited by the Company to an equalisation account for the Sub-Fund.

The equalisation account will be maintained in order to ensure that equal amounts are distributed in respect of each of the Class A EUR Distribution Shares notwithstanding different dates of issue.

When an equalisation payment has been effected, any subsequent dividends in relation to the relevant Class A EUR Distribution Shares shall include an amount corresponding to the aforesaid equalisation payments and paid out of the equalisation account. However, the said amount shall not be included as part of the dividend in the event that the Directors exercise their discretion (as described hereunder) not to consider equalisation when determining distributions.

The Redemption Price of any Class A EUR Distribution Shares will also include an equalisation payment in respect of the net income of the Sub-Fund since the start of the relevant interim period up to the date of redemption, and upon the redemption of any Class A EUR Distribution Shares based on that Redemption Price, a sum equal to that part of the Redemption Price of a Class A EUR Distribution Shares which reflects net income (if any) accrued up to its date of redemption will be deemed to be an equalisation charge and debited to the equalisation account.

In the absence of significant fluctuations between the redemption and issue of Class A EUR Distribution Shares, the Directors may choose not to consider equalisation when determining distributions to Shareholders or to pay to such Shareholders any excess of equalisation credits over debits. Any fluctuations between redemption and issue of shares that could have an effect of one per cent (1%) or more on the NAV per Share shall be considered significant.

Sub-Fund Expenses

The fees and expenses incurred in connection with the establishment of the Sub-Fund, the application for licensing of the Sub-Fund, the preparation and publication of the Offering Supplement and all legal costs and out of pocket expenses in relation thereto shall be borne by the Sub-Fund.
